Campus instructors establish education program in Africa

A six-man team from this college is now in the process of helping to initiate a project in international education at the University of Botswana, Lesotho and Swaziland. The project involves the three independent African nations of Botswana, Lesotho and Swaziland and is being carried out by the college under contract with the Agency for International Development (AID) of the State Department.

Dr. James A. Langford is head of the team and is currently on leave from the Education Department faculty.

Botswana, largest of the nations, has an area of 231,804 square miles and a population of 593,000. A pastoral country, it exports meat, live cattle, hides and skins. Botswana also has gold and silver ores.

Lesotho, 11,720 square miles, supports a population of 885,000. It depends upon agricultural products for its export trade, principally corn, wheat, sorghum, sheep, wool, mohair, and cattle.

The smallest of the nations, Swaziland occupies 6,704 square miles and has a population of 345,000. It depends upon exports of sugar, timber, asbestos, and iron ore.

Dr. Langford and Malcolm W. Wilson, also on leave from the Education Department, are stationed at the campus in Botswana.

Dr. Ralph Collins, on leave from the Education Department, and G. Patrick Cline, who has been a foreign student counselor at California State College at Fullerton and Fresno State College, are in Lesotho.

Jerald B. Crews will join Dr. LaVerne Bucy, on leave from the Animal Husbandry Department, in Swaziland.

The team will work with both English educators and native faculty members in the development of the programs.

Crews, who graduated with a Bachelor of Science Degree in agricultural engineering from Cal Poly in 1961, taught vocational agriculture in San Diego County before joining the California Department of Water Resources. He joined the U.S. Soil Conservation Service in 1967.

Dr. Langford, a member of the faculty since 1955, has been coordinator of the college's elementary education program. He

earned his Bachelor and Master of Arts Degrees from Western Kentucky Teachers College and his doctorate in education from University of Michigan.

Dr. Langford has also been an elementary school teacher and administrator, and was an assistant professor at the University of Nevada before joining the faculty here.

Dr. Bucy, here since 1955, earned his bachelor's and master's degrees at the University of Kentucky and his doctor's degree at University of Illinois. He has been the animal nutrition specialist in the Animal Husbandry Department.

Dr. Collins, here since 1955, earned his bachelor's and master's degrees at Drake University and his doctorate in education at University of Colorado. He has been a high school physics instructor and has been on the faculty of Drake University, Central Washington College and the University of Oregon. Dr. Collins served as president of the Cal Poly Chapter, California State Employees' Association, during the 1968-69 academic year. He will assist in the development of an audio-visual program at the university.

Editor:

May I be the first to congratulate the ASI president for his acknowledgement of the democratic process of our State College Student Body. Maybe I am assuming too much, but I believe that our president was elected by the same rules and practices as the presidents of the other schools. If, gathered together in one organization, their views tend to lean one way or another, we must assume that their views are those of the majority. Our reaction at Cal Poly is similar to: "If you won't play the game my way, I'm taking my ball and go home." The only problem is that we don't have the ball.

In fact, wouldn't it be nice if Governor Reagan followed the example of his favorite campus and pulled California out of the United States? Think about it, please!

Geary Brown

Column censured

Editor:

The "Constructively Speaking" article (Vernon Tritchka) of Oct. 14 seems to follow a distinct and vaguely familiar format. Eliminate the word "Vietnam" from the text and then substitute the following words or phrases: "sex" for "peace," "ignorance" for "the

Skills Week rated good by agriculture teachers

The 1989 Skills Week program on campus was called "excellent" by participating vocational agricultural teachers. Evaluating the program was Oscar Kimmel of the Pennsylvania State University Agricultural Engineering faculty.

He compiled the data from evaluation questionnaires completed by 67 participating high school vocational agricultural teachers.

Skills Week is a refresher course service provided to the vocational agriculture instructors by the School of Agriculture.

In 1989 eleven classes in the fields of agricultural education, agricultural engineering, crops, natural resources, ornamental horticulture and poultry were offered.

war," "SIECUS" or "sex education" for "Moratorium," "school districts" for "President Nixon."

With a few other minor changes the article will read like a letter from the local super-patriots who would protect our children from the "new radical" sex education in schools.

Constructively speaking, the enemy to them is the same, i.e., the "New York-based foundations and articulate though mistaken spokesman willing to do their bidding." Wake up, Mr. Tritchka, the enemy is not the monied bogey man somewhere else. It is local ignorance here at home.

Richard J. Krejca

Float corrections

To the Editor:

Your article and picture of the artists conception of the float coverage is greatly appreciated. But... there were errors in the article (Oct. 7th) and the caption of rendering (Oct. 9th).

The article on Oct. 7th mentioned that the working drawings were being completed by Mr. Robert Keech's ME Senior Design Class but it was erroneous to state that Dean Wolfe also is supervising. Dean is construction chairman for the committee and is responsible for all activities

relating to the construction phase. He is a member of Mr. Keech's class and is one of the students who is working on-and organizing-all of the drawings as a class assignment. The flowers that we are growing are a cooperative effort with the OH Club and Department and we are growing approximately two thirds of an acre of Bachelor Button flowers. Also the heading, "Back to Drawing Boards-Another Rose Parade", is rather erroneous because we were at that stage in January!!!

Now, the caption under the picture was very poorly stated. First, this years Rose Parade Float is not "This Years Contribution..." but it is an entry proposal of our float to the Pasadena Tournament of Roses.

The float this year was designed by an Architecture student and the Mechanical Engineering students are working on the mechanical drawings. But there are others involved: a name a few, OH, Industrial Technology, Animal Husbandry, Home Economics and Printing Technology and Management students.

The printing of this letter would be greatly appreciated to get the story correct. So far my experience with our paper has not been very good. I'm beginning to wonder about the accuracy of the other news articles in the Mustang Daily.

Sincerely yours,

Albert Okuma

Editor's note: The story on the Rose Parade Float and the activities connected with it was submitted to Mustang Daily by the publicity chairman of the Rose Parade Float Committee and the facts were not checked because it was assumed that they were correct since the story came from the committee itself.

SEX

Now that we have your full attention, we'd like to point out that you can obtain a 48 inch Sylvania Black Light with fixture that normally lists for \$21.95 for only \$14.95.

And if this doesn't tweek your twiggy, how about a power supply for your car stereo that normally sells for \$19.95 for only \$11.95. These compact units convert 110 VAC to 12-volt DC at 3-amps with vigor. They feature an on/off light, fuse and a full guarantee.

You can be set up with either of these beauties by contacting:

Students can now use the food stamp program

The Food Stamp Program can help to alleviate a problem common to all college students—poverty. If you're slowly dying of hunger, this is a way to get more and better food. The Federal Food Stamp Program will begin operations here on Nov. 1. Get your roomies together and march on down to Graphic Arts 228 where brochures describing the program are available from 9 a.m. to noon and 1 to 4 p.m. Monday through Friday.

The brochure explains how food stamps increase food purchasing power. Also explained is how to obtain the stamps, how to buy food at regular retail prices and how the whole system operates.

Even if you're not currently receiving public assistance payments you may be eligible to participate in the food stamp

program. It deals with households, not with each individual in each household. For example, if four students share a house, one of the students alone cannot participate. All four must jointly use the plan. However, if a person is living alone he would have to be the lone participant.

Either way each household is required to meet certain minimum asset and net income requirements. These are usually adjusted between assets and net income and your living, medical and educational expenses.

Final preparation for participation in the program can be handled by calling the County Welfare Department (543-5700). Any student who thinks he has a chance of benefiting from the food stamps is urged to call immediately.

Chem articles published

Two members of this school's Chemistry Department have had articles published in national scientific journals recently.

Dr. Allen W. Cobb published an article on the chemistry of electrical effects that occur when water containing traces of salts is frozen and might occur within a thunderstorm.

Cobb's writing was in the "Journal of the Electrochemical Society" in June, while Eatough's was in the July issue of "Inorganic Chemistry."

The preparation of new chemi-

cal compounds by the use of extremely high pressure was the topic Eatough chose for his project.

Cobb earned his bachelor's and master's degree from Oregon State University and a PhD from University of Wisconsin. After work in research, he joined the Cal Poly faculty in 1964.

Dr. Eatough received his degrees from the University of Washington and from Brigham Young University. He joined the Cal Poly faculty in 1968 after teaching at a junior college.

Agriculture Council plans year's work

The Student Agriculture Council has outlined its plan of work for the 1969-70 year.

Committees and their chairmen include: Council Meetings, Tim LaSalle; Student Affairs Council representatives, Paul Banke, Keith Gorzell, and Randy McLaughlin; Campus Tours, Dave Dias; Future Farmer Hosting, Les Ferreira; International Student Program, Martin Miyasa; Publicity, Susan Snyder; Special Activities and Programs, including Fund Raising Committee, Rex Swan, Homecoming, Phil Francis, and Poly Royal, Rex Whelan; Publishers Board, Ralph Grossi; Student Planning Commission, Randy Rowland; and Student Judiciary, Joe Uremovic.

Cheering squad wants support

The yell leaders and song girls ask for your support at this upcoming football game. The game is against San Fernando Valley State College. The game is set for 8 p.m., Saturday, Oct. 25 at the Birmingham High School football stadium in the San Fernando Valley. Your vocal and moral support is asked in effort to aid our Mustangs on to Victory number 5.

Meeting for worship according to the customs of the Religious Society of Friends (Quakers), 10 a.m. Sundays, Campus Christian Center. All welcome.

The Agriculture Council is a board of students representing departments and clubs within the School of Agriculture. It is a communications network which conveys the ideas and thoughts of the School of Agriculture to the Student Affairs Council.

The Agriculture Council has representatives on S.A.C., conducts tours on campus for groups who want to see the agriculture units, sponsors outstanding leaders in the field of agriculture to speak to the student body, sponsors the Leader-

ship Awards Banquet to recognize agriculture students with distinguished records of leadership, sponsors Farm-City Week, hosts the visiting Future Farmers who are on campus for the FFA convention and the state judging finals, invites foreign students to be guests at the meetings and discuss the agricultural situation in their home countries, sends representatives to the various governing boards on campus, and maintains the bulletin board outside the Agriculture Building.

Rodeo Team places first in Redding competition

The Rodeo Team took first place in both the men's and women's team division at Shasta College's first annual National Intercollegiate Rodeo Association rodeo in Redding Oct. 18 and 19.

The Men's Team earned 650 points while second place Poly Pomona had only 75 and third place University of Arizona had 70 points.

The Women's Team tallied 250 points leading second place University of Arizona by 60 points and third place Pierce College by 220 points.

Team member Tom Ferguson won both the ribbon roping and the bull dogging. Another team member, Jerry Kolle, placed third in the calf roping.

Other timed events winners included Wally Roney who placed second in both the calf roping and the ribbon roping; Tom James who placed second and Jim Schasma who placed third in bulldogging.

Melvin Dick was the team's leading scorer in the rough stock events winning both the bareback and the saddle bronc riding.

George Brown won the bull riding. Bill Freeman and Dennis Pleasant placed second and third respectively in the bareback bronc riding while Charley Simmons took third place in the saddle bronc riding.

Robin Duncanson won the breakaway roping for the Wo-

men's Team while Sharon Meffan placed second in the goat tying and took third place in the barrel race.

Yarbrough to appear in Santa Maria

Glen Yarbrough will be appearing at Allan Hancock College on Oct. 28 at 8 p.m. in the Sports Pavilion. Yarbrough is well-known for his treatments of "Baby the Rain Must Fall", "Four Strong Winds", "Try to Remember", and many, many

others.

George McKelvey, a Chicago born comedian who is famed for his satirical wit, will appear at Allan Hancock with Yarbrough. He has performed on the Mike Douglas and The Tonight Show. Before becoming a comic, he

sung with jazz groups, rock bands, and settled on folk music.

Tickets for the double bill concert may be purchased here on campus. Prices will be \$3.50 for reserved seats, \$3.00 for general admission, and \$2.75 for A&S card holders.

Aloha, hula state offers summer jobs

The College Students Guide to Summer Jobs in Hawaii for 1970 will be available to students by Nov. 1.

The guide features 90 pages of detailed listing of Hawaii employers, their addresses, employment managers and types of business.

This year's edition will feature chapters on ways students can most easily contact employers, where to live inexpensively in Hawaii, state rules and regulations concerning summer employment and inexpensive restaurants.

It is recommended that all interested students begin contacting employers as soon as possible as there is a large influx of job hunting going on in the "Aloha" state.

Copies of the College Students Guide to Summer Jobs in Hawaii can be ordered directly from Hawaii Summer Jobs, Box 6446, Honolulu, Hawaii, 96818. Cost of the 1970 guide is \$1.95 prepaid.

Band rehearses half-time shows

Story and Photos by
Ken Hyland

"We proudly present the Cal Poly Mustang Marching Band!"

The words of the announcer are soon joined by the yelling of the band and the boom-da-boom, boom-da-boom, boom-da, boom-da, boom, boom of the drums.

Over 48,000 people will hear the sounds this year, but what goes on behind the scenes?

Though each show is only rehearsed the week before the game, the actual planning begins almost a year before the performance. All of the ideas and planning are those of the students.

These ideas are then presented to a special committee in the spring, where each one is considered. The ideas are used to make four out of the seven shows that the band performs.

The special committee is made up of volunteers from the band and Rally Committee, with the conductor of the band, William Johnson, advising them.

The other three shows are done by the arranger, Jim Higgins, who also does the arrangements for the University of Michigan Band. The band paid him almost \$1,500 this summer to arrange and write those shows. Few other bands have their own arrangers.

The rehearsals on Monday and Wednesday are done with the charts, and by the rehearsal on Friday everyone is supposed to know what to do. Wednesday and Friday rehearsals are held on the athletic field behind the Men's Gym, so on Saturday morning there are just last minute adjustments to be made.

On Saturday they meet again about an hour and a half before the game in order to warm up and then march down to the field for the pre-game show. At about three minutes before the half-time starts they leave their reserved seats and assemble on the field, the feeling then is one of either do or die.

After the show is over there is still the post-game show to perform. This is new for the Mustang band but it is done by almost all of the major bands across the country.

Then the band has a day off—Sunday. Monday night they are issued another set of charts for the next week's game...

Student Rap Center set to let student air gripes

Do you have a gripe or a question about student government that's been bothering you for a long time?

Now you have the opportunity to get the matter settled. The ASI officers have instigated a Poly Rap Center to be held every Thursday at 11 a.m. in the TCU conference room. The first meeting of the Rap Center will be tomorrow.

ASI President Paul Kresge, Vice-President Dick Barret, and Dr. Lawson, associate dean of activities, will be present to talk and answer questions on anything concerning student affairs.

The ASI officers state that this program "will eliminate

any charge that students aren't able to air their feelings to the officers." The success of the center will rely on student interest. "If the student doesn't have the interest or initiative to find out factual and first-hand information, then this student does not have the right to make false claims concerning student government and activities," states Barret.

Senior pictures

Sign up for Yearbook pictures in GA 228. Pictures will be taken all day Nov. 11, 12, 13, in GA 800. Those seniors in activities are asked to make arrangements at this time to avoid the last minute rush.

Five judges marked ballots and the 1969 Homecoming Court was chosen. The girls were selected on personality, poise and beauty.

This year's court is Pat Avila sponsored by AIAA; Katie Harper sponsored by the Crops Club; Linda Heckler sponsored by Block P; Yoko Ohtsuki sponsored by AIA; and Carole Vedder sponsored by the Rally Club.

It is now up to the student body to elect the 1969 Homecoming Queen.

Each young lady was dressed in long formal attire and after

modeling for the judges were asked an impromptu question related to their field of interest.

One of the judges stated that the candidates were also personally interviewed at a dinner held before the pageant.

The judges for Friday (Oct. 17) night's court were Dan Frank from Ross Jewelers, Leo-

nard Larson from Larson's Village Square, Mrs. Righetti from Riley's Department Store, Mrs. Tisserat from Fay's Beauty College and Clell Whechel from Dennis Transfer Inc.

Student voting runs from Oct. 29-30. Booths will be set up on campus and student body card must be presented before students can vote.

On campus this week

Ag Engineers meet

The student chapter of the American Society of Agricultural Engineers is planning a joint meeting with the Agricultural Engineering Society tomorrow at 7:30 p.m. in Ag. Eng. 128.

Guest speaker will be Mike Simmons of the Soil Conservation Service. His talk will be concerned with the future of agricultural engineering with the SCS. Any interested students are invited to attend.

This year's ASAE officers are Jeff Bryant, president; Jim Dooley, vice-president; and Tony Partado, secretary-treasurer.

Corinthians, the sailing club here on campus, meets tonight at 7:30 p.m. in Ag Engineering 128. Following the general business meeting, members will discuss their upcoming outing to Lopez Lake. Interested students are invited to attend.

Chemistry meeting

How to plan and carry out a senior project will be the topic of Dr. Howard Walker's talk during the American Chemistry Society meeting Thursday, Oct. 23, at 7:30 p.m. in Science E-47.

Fund program

Thanks to the recently established Merle Hamby Fund Program, children of Cal Poly married students can now be assisted by immediate medical care in time of an accident or emergency.

Sponsored by the campus Student Wives Club, parents needing financial assistance for such medical care should contact the Placement and Financial Aid Office, Administration 218, for further information.

Pancakes for sale

The Poly Goats 4-Wheel Drive Club is sponsoring a pancake breakfast this Saturday morning in Poly Grove. Homemade pancakes with real butter and syrup will be served from 8 a.m. to 1 p.m.

A stack of three pancakes will cost 75 cents and a stack of five will go for \$1.00. Milk and coffee will be available.

Crops Club at fair

Students from the Crops Club travelled to Caruthers last week to judge vegetables, crops, agronomy, fruits and nuts at the Caruthers District Fair. Six students and an instructor judged the display booths and exhibits from the San Joaquin Valley area.

Crops Club will hold a meeting tonight at 7:30 p.m. in room 220 of the Ag-Social Science Building. Homecoming plans will be discussed.

Scandinavian Seminar

Applications for study abroad due

Applications for the Scandinavian Seminar study abroad program are now being taken for the 1970-71 school year. Students may attend schools in Denmark, Finland, Norway, or Sweden. This living-and-learning experience is particularly designed for college students, graduates and other adults who want to become part of another culture while acquiring a second language.

The study program is designed to meet each student's individual needs. Students stay with a family early in the year which gives them an opportunity to begin practicing the use of the language on a daily basis and to share in the activities of the community. For the major part of the year the student lives and studies among Scandinavians at a residential school for continuing adult education.

Interested persons are asked to write to Scandinavian Seminar, 140 West 57th Street, New York, N.Y. 10019 for more information.

Takes 14 firsts

Rodeo team dominates meet

By Bernie Gusenke
Sports Writer

Lead by Melvin Dick, the Mustang Rodeo team captured 14 of 18 places to easily win the Shasta-Redding Rodeo last weekend.

Dick grabbed a first place in both the saddle brone and bareback events to earn the all-round championship for the two day rodeo.

The Mustangs finished the competition with 850 points. Poly Pomona landed second with 105 points, followed by University of Arizona with 87.

Helping Dick in the saddle brone department was Charlie Simons, who finished third.

Poly completely dominated the bareback event with Dick taking first, followed by Billy Freeman second, Dennis Pleasant third, and Mike Silva fourth.

George Brown proved to be the best bull rider for Poly as he finished first in this event. Greg Reidel and Mike Silva placed fourth and fifth, respectively, for the local riders.

Final standings for the women were; Cal Poly (SLO) with 230 points; University of Arizona, 190 points; and Pierce Junior College, 80 points.

In the bull-dogging, it was another clean sweep. Tom Ferguson was the fastest in dropping the steer, followed by Tom James and Jim Schausma.

First place in calf-roping went to John Smithson of the University of Arizona. Poly ropers Wally Roney and Jerry Koile finished second and third, respectively.

Tom Ferguson rode off with the honors in ribbon roping, followed by Wally Roney also of Poly.

The Mustang women weren't counted out. They also brought home an over-all first place.

Sharon Meffan paced the girls by placing second in goat-tying and third in the barrel race.

Robin Duncanson was the only girl to successfully rope two calves in the break away roping to take first place.

Harriers and poloists dropped three times

By Rich Bonchetti
Sports Writer

The Mustang cross country and water polo suffered setbacks last weekend in action last Friday and Saturday.

The harriers were barely clipped last Friday by a powerful San Jose State team 21-37. "We were all disappointed," stated head coach Dick Purcell.

"We should have beat them, we were in better condition than they were. I guess we're not mentally ready. We read too many of their clippings."

Eddie Cadena, true to form, turned in another outstanding performance finishing second to San Jose's Andy Vollmer, in a time of 26:30. Vollmer's time was 26:25.

An encouraged Purcell went on, "Our times were good all the way through, if we had gone out aggressively at them we would have won."

Gary Duval finished fifth for the Mustangs in 27:03 and Greg Tibbets who had just recovered from illness placed ninth in 27:23.

"I think they finally made up their minds to play together," were the words of water polo coach Dick Anderson.

The Mustang water polo team looked impressive over the weekend, beating San Fernando Valley State 7-6 on Friday, and then losing to tough Fresno State on Saturday, 8-5.

Dave Vickerman and Steve Howard scored two goals apiece in the San Fernando game. Bob Nero's three goal performance on Saturday was overshadowed by Fresno's Jim Houston, who scored five.

SEX

Now that we have your full attention, we'd like to point out that we take great pride in the fact that we are considered as "Printers to Cal Poly." We look forward to talking to you about your club printing, campaign supplies for Poly elections, resumes, tickets, for that upcoming banquet, plastic report bindings, 24 hr. delivery on rubber stamps. You'll find us located down at 1415 Monterey Street in the shadow of the S.P. overpass and we can be called at 543-6843.

Blake Printery

Silverman cited as top player

Jon Silverman, defensive back, six unassisted tackles and nine has been named Poly's "Player of the Week" for his play in assisted tackles. Silverman's second interception stopped a Fresno scoring threat

Coaches cited the 175-pound junior for his two interceptions, and paved the way for the upset win.
